Photo courtesy: Athima Tongloom/Moment/Getty Images If you want to save a Facebook viral video to send all your friends or want to keep that YouTube online training on hand when you need to use it in the future, there are many reasons why you might want to download videos you find online. But you can also ask yourself whether it's okay to save the media you find online, from the ethical and personal security points of view. Before downloading the first browser extension you encounter or paste a URL into a potentially gloomy video extractor, it is important to learn about how, and when you can download online videos safely. When is it okay to download videos online? YouTube, Facebook, including Tiktok, many sites are known to provide high-quality video content generated by the user. But is it really okay to download videos from these and other sites? In general, if the content is likely to have copyright, say it comes from a television channel or broadcasting news station, you should not download it. However, there is a gray area when it comes to things you find on social media and other sites, and it also matters what you will do with them. Photo courtesy: Spiffy/E+/Getty Images YouTube is one of the places people most commonly want to download videos (or simply the audio of those videos). Your terms of service require you not to copy, distribute, transmit or sell content that you did not create that is loaded on the site unless you have an explicit written permission from YouTube or the original Creator to do so. However, there are some situations in which it may be okay to download media. If you already own the videos, they say they're posted on your YouTube channel, and you want to back them up? That should be fine. If you're making a video or parodying you wish to refer to the content of another person, you may not have problems. Videos they haveThe licenses of the common goods or that are also of public domain are well to download. However, it is better not to save content than someone more believed, especially if it is their intellectual property and are monetizing it. Just remember that downloading anything from YouTube violates the terms of service regardless of what, but it is not a criminal act to download the public domain or the distribution video of the creative common goods. Just as it takes precautions when opening an email that could be a phishing scam, you should also take precautions when downloading videos in line. The file exchange torrent sites and some video extractors, which are the sites in which the URL of the page that has the video you want to download and the place download a copy, can be infected with malware that they deposit on your computer when you open the downloaded files. Only for this reason, it is better to avoid torrent sites in particular: you have no idea of what the content rose and what could have done it in the meantime. Photo Cortesía: Momo Productions/Digitalvision/Getty Images Instead, look for reliable sources to obtain downloads. If you are using Google Chrome as your browser, for example, visit the Chrome web store to search for extensions that you can add to help you download videos. Usually, they have user qualifications about their performance, and may spend at some time investigating what other people recommend as safe options. Look for those that are highly qualified and the most downloaded; In general, they are the most safe elections. Make sure the sources that are also downloading are safe. YouTube videos generally do not have attached malware. You can also choose to download certain contents such as Netflix videos, which you can save on your computer and see later. etnemacifácepse. etnemacifácepse etsixe dadilanoicunf ase euqrop soruges nos ermeis isac otse reah netimrep el euq n'Áisimsnart ed soicivres soL .aenÁl ed atpeca detsu n'Áicamrofni us raivne lA .oveun ed oletn©Átni e anigÁp al euqserf, rovar roP .amelborp nu obuH .everb ne n'Áicacifrev ed ocin³Artelece oerroc nu jÁribiceR .radaRheT noc ramrif rop saicarG letneilac sÁm aÁgoloncet ed satrefo sal ed sÁmeda, sÁm y sisilÁna, n'Áinipo ,soiratnemoc ,aroh amitPÁ ed saiciton renetbo arap esertsÁgeR rettelsweN radaRheT .sitarg sogeuj y senoicacilpa ,satneimarreh serojem saL sortoson ne raifnoc sedeup ose roP .adailifa n'Áisimoc anu ranag somepod ,oitis ortseun ne secalne ed s©Ávart a arpmoc detsu odnauC .ocilb³Áp us rop odayopa se radaRheT NPV tseB41 enohPí61 SOI2202 onof©Álet rojem lE aÁd remirp led satrefo aícneT TEN.DEREWSNASNOITSEUQ EDSEd SAM .oedÁv radraug sereuiq is aruges n'Áaicpo anu se orep ,agracsed anu etnematacaxe se on otsE .etnemalos ovitiospsid us ne nadraug es y naerc es euqrop sovhcra sol enimatnoc erawlam le euq ed ogseir yah on ,ograbme niS .odnabarg jÁtse detsu sartneim abirra nemulov ed levín le renet y onimac le odot aricudorper es oedÁv le euq rajed euq Árdnet .olpmeje rop jotse noc senocatimil sanugla yaH segami yÁteG/Í6dnetseW .aÁsetroc ototF .arodabary ed n'Áicacilpa al atuceje es sartneim ovitiospsid led alatnap al ne odnaguj ©Átse euq ol ed oedÁv nu aerc euq .n'Áicnuí atse noc sodapluge nÁtse saÁd sotse ne sovitispsid sorto y serodandro sohcM .allatnap ed n'Áicabarg al aruges sÁm al res edeup euq olreah ed arenam anu yah ,osimrep us seneit y selaiocas seder sal ne etrapmoc ailmaf al ed orbneim nu euq lanosrep ogla se zev lat ,renetnam oruges se euq ed oruges sÁtse euq oediv nu radraug sereuiq iS orrohÁ ogeuf ed orugeS .ohceh sah ol on is n'Áaicpo atse atilibaH .soruges nÁtse euq ed esrarugesa arap sovhcra etnemacitÁmotua raenace y sotse raroprocní nedeup serodagevan sorto y emorhC .solragracsed ed s©Áúpsed sovhcra sol ne suriv ed renÁcse nu ratuceje ebed n©ÁihmaT .solle ed oronid reah ed ratart o sayubirtsid sol on etnemelpmis á soedÁv ragracsed edeup Terms of Use (opens in new tab) and Privacy Policy (opens in new tab) and is 16 years or older.
